WORK EXPERIENCE

Full Stack Web Developer Bionic Engineer

08/2021 - 09/2021

Bangalore, Karnataka

Achievements/Tasks

- Where I developed a website for Quient Training Pvt. Ltd. by using HTML, CSS, PHP, MySQL.

PROJECTS

Detection of crack in Railway Tracks using Deep Learning Neural Network

- It is a Deep Learning Project based on crack detection using CNN. In which the deep learning model is trained by giving the a large set of image weights to detect the images.

Quient Training Pvt.Ltd. Company Website

- Full stack web development Project. Developed the website by using HTML, CSS, Php, MySQL. This website give the basic details of job and also customer can contact with the company through this website for any kind of queries.

Portfolio

- My portfolio is not just a collection of projects, it's a vibrant canvas showcasing my skills and passions. Built with the power of HTML, CSS, and ReactJS, it's an interactive experience that unfolds like a personalized story.

Cafeina Cafe Website

- Our cafe website is more than just an online menu – it's an invitation to experience the soul of our haven. It's a place where the aroma of freshly brewed coffee mingles with the clickety-clack of keyboards, where the warmth of our community radiates through the screen. So come in, grab a virtual cup, and let us code you a smile.

Meme Generator

- Unleash your inner meme lord with the ultimate joke machine – the API-powered meme generator! Imagine a portal where laughter bubbles up like a digital geyser, fueled by the potent mix of your wit and cutting-edge technology.
